An example of this is (possibly) mouse: it is actually very difficult to determine whether the animal is more or less frequent than the computer meaning, but it would seem odd not to place the animal first. Our computer corpora of general English show that the most frequent use of this word overall is the meaning that the Oxford Advanced Learner's Dictionary entry places third: 'an examination of something, with the intention of changing it if necessary: The government has embarked on a systematic review of transport policy.' However, our corpora of materials for teaching and learning English show that most learners don't learn this meaning until they are working towards upper-intermediate level, whereas they are introduced to book and film reviews (sense 1) at pre-intermediate level. My Word Lists With OALD Premium access, you can create your own word lists using the 'Add to My Word Lists' stars inside OALD entries. If you press 'Skip', the correct answer will be shown and you will receive a score of zero for that question. You can either select one of these suggested words or finish typing the word you want and press 'Enter' or the Search button. Oxford Learner's Word Lists Please visit the Word Lists page, where you can find links to the word lists, as well as more information about each one: The Oxford 3000, the Oxford 5000 and the Oxford Phrase List are all aligned to the Common European Framework of Reference for languages to guide you on the most important words and phrases to learn at each level. Your answer will be marked immediately when you press 'Submit'. However, there are exceptions in certain cases, for example: when the original meaning of the word, though no longer the most frequent, is still very frequent and familiar and will be known to learners at a low level. You will still be able to use all areas of the free site, such as OALD look-up, topic dictionaries and Oxford 3000 and other word lists. The Resources section includes a wide variety of useful tools, worksheets and lesson plans for improving dictionary skills or to help with vocabulary, writing or speaking. Sometimes, when you press 'Submit' and your answer is marked wrong, you will see an 'I got this right' button. This is quite rare: usually the most frequent meaning is the one that learners meet and learn first. Practical English Usage is not available on the free site, but you can find a list of free sample entries on the PEU home page. Back to FAQ Contents.
